office visits in 2023.

12

physicians volunteered
their services.

298

provider visits in 2023.

WHAT WE DO

Healing Shepherd Clinic is dedicated to providing education, preventative care, and medical treatment to the homeless residents of Union Gospel Mission of Tarrant County and tenants of The Vineyard on Lancaster apartments in a climate of compassion and dignity.

The homeless are exposed to harsh weather, malnutrition, diseases, and lack of sanitation. Many are unaware that they have chronic conditions like diabetes, heart disease, or mental illness. Often, their only option for medical care is to go to the emergency room, even for something as simply treated as an infection. Patients at the clinic can be treated for many common illnesses and conditions that are prevalent in the homeless population including heart, liver, and kidney diseases; skin infections; chronic pulmonary disease; diabetes and hypertension. Caring for the mental, physical, and spiritual well-being of our residents and guests is our goal.

Monday-Friday (9am-4pm)
1321 E. Lancaster
Fort Worth, TX 76102

LemonAid Kids HSC Fundraiser Recap

You're never too young to make a difference, and the Colonial Kids for a Cause's LemonAid stand is the perfect example! Every year, the LemonAid Kids, all high school age and younger, sell lemonade to support their charity of choice during the Colonial Golf Tournament. This year, the kids chose Healing Shepherd Clinic. They raised over \$80,000 for our clinic. What a wonderful blessing!
